DEATH OF THE VENERABLE DR. R. H. POWER.

End of a Long, Useful, and Active Life as a Physician and Public Man - The Governorship - Other Mention.

NEWPORT NEWS, VA., February 25 .-(Special.)-The venerable and venerated Dr. Robert H. Power, a leading physician of this city, died at his residence, on Thirtleth street, at 4 o'clock this morn-

For the past three days it had been known that Dr. Power could not live long. His children were notified of his extreme lilness and they hastened to his bedside. He was conscious to the end and closed his eyes wearily, as if falling into a peaceful sleep, as, indeed, it was-the sleep of death. The funeral will take place at the family buryingground, near Grafton, York county, tomorrow afternoon.

Dr. Robert H. Power was born in York county, in 1824, and after receiving a liberal education at William and Mary College he entered the Jefferson Medical College, at Philadelphia, graduating two years later with distinction. He was county, and his reputation as a successive physician soon became general. He wattwice married, his first wife being Mi Abbie Jencks, of Syracuse, N. Y. Afther death he married Miss Fannie French sister of Colonel French, of this city sister of Coionei French, or this city, who died about twelve months ago. He is survived by eight children-Misses Belle, Mary, and Lucy Power, and Mrs. J. M. Curtis, wife of the City Treasurer of this city, Mrs. Edith Farthing, wife of Judge G. W. Farthing, of James City county; Mrs. Fannie Helm, of Kentucky; Cardner Power of Allanta Ga., and Gardner Power, of Atlanta, Ga., and Rev. F. D. Power, late Chaplain of the United States Senate, and now pastor of Mount Vernon church, Washington, D. C. and built up an extensive practice and was for a number of years president of the Newport News Medical Society.

GRATUITOUS SERVICES. Notwithstanding his multifarious du ties, professional and political, Dr Power rendered an immense amount of gratuitous services during the dark days of the civil war, having been implore by the citizens of York county to re-main with them rather than to serve on the field of battle. In politics, he was recognized soon after the war as one of the leading Democrats in this one of the leading Details and was twice elect-ed to the General Assembly from this district—once as a member of the lower house, and the second time as a member of the State Senate. In 1868 the Doctor was a delegate to the convention that nominated Seymour and Blair for that nominated Seymour and Biair for the presidency and vice-presidency of the United States, and was also a mem-ber of the convention of 1872. During Mr. Cleveland's first administration he appointed Dr. Power postmaster of this city, but he declined the appointment, saying that he did not care to assume the responsibility attached to the office. As a speaker he was forceful, logical, As a speaker he was forceful, logical,

YORKTOWN MONUMENT. It was mainly through the efforts of Dr. Power that the manument was erected at Yorktown to commemmorate the surrender of Lord Cornwallis, as he spent a great deal of time in Washington, and finally succeeded in having a bill passed by Courtesa making as ington, and finally succeeded in having a bill passed by Congress making an appropriation for the erection of the shaft. He was interested in his Alma Mater, William and Mary College, and was instrumental in securing the passage of a bill by Congress, repaying the trustees of the college for damage done to the buildings by Federal troops during the war.

Major Baker P. Lee's friends are push-ing his candidacy for the gubernatorial nomination, and they say they will make a hard fight before the Democratic State Convention next summer. It has been a long time since the Chief Magistrate of the Old Dominion has been selected from this section of the State, and this, it is said, will add strength to Judge Lee's candidacy. His boom was started recently, and seems to be gaining ground. It is rather early to begin the campaign, but his friends believe in taking time by the

DR. TAYLOR AND THE X-RAYS. He Is Experimenting with a Bullet

in a Man's Thigh. State-Chemist W. H. Taylor, than whom no man in Virginia is more interested in scientific subjects, is just now engaged in making some experiments with the cathode, or X-rays, which it is hoped will result in the location of a bullet imbedded in the flesh of Mr. Guy S. Bralley, of Wythe county, and thereby lead to its extraction and a surcease of

pain for him.

The bullet was accidentally fired at Mr. Brailey by a friend with whom he was hunting, twenty-four years ago, and it has since caused him a deal of suffer-ing. He came here several days ago to be operated on by Dr. George Ben. John-ston, but it was thought best that he should first have the bullet located, if

possible, by the rays.

They were focused on him for an bour yesterday and a faint negative showing the bone of the leg, and a dark spot, which Dr. Taylor thinks is the bullet. was the result. The experiment was not entirely satisfactory to the physician, but he believes the thigh was not exposed long enough. Another attempt will be made to-day. Mr. Bralley will submit his thigh to exposure before the cathode instrument for two hours, and Dr. Taylor feels sanguine of success. When a Dispatch man called at the Chemist's office last night, he found Mr. Bralley there, and he conversed freely concerning his case. He said that he had suffered to such an extent with his wound that he was determined to have the bullet out. He is very much encouraged, though, and expects excellent results

from the experiment to-day.

Dr. Hatcher at the College. The last of the series of lectures on the "Evidences of Christianity" was delivered last night by Rev. William E. Hatcher, D. D., who spoke on "Experi-mental Evidences." A large crowd was present, and among them many distinguished persons. The services were participated in by Drs. A. B. Dunnaway and H. A. Tupper, and Professor Boatwright. Dr. Hatcher's address was one of great excellence, and he held the undivided at-

tention of his audience from beginning A large number of students have gone to represent the college in the Young Men's Christian Association Convention, now being held in Petersburg. More will probably go over to-day. At a recent meeting of the association Mr. John E. Johnson was elected president for the

nsuing year.

The "Carnival of Days." "The Carnival of Days" which the ladies of St. James Methodist church are olding at Corcoran Hall celebrated its Reception-Day" last night. The attendance was good, and the programme rendered was pleasing in itself and as pleasingly executed. There were songs and instrumental music. To-night will be "Cleaning-Day," and, though the girls will be busy with house-work in every family, there is one whose only duty is to entertain, and she will be on hand, this evening without fail. There will also be an interesting musical programme and other attractive features.

along a noble work. For Sending an Obscene Letter.

On Saturday evening the auction will

take place, and each booth will be a "bargain counter." Those who go will spend an evening of pleasure, and push

Deputy-Marshal Janney Pleasants arrested Alice Carter, a colored woman, yesterday, at Taylorsville, on a war-rant charging her with sending an improper letter through the mails to Mrs.
J. Randolph, a respectable colored woman, living in the above city. Alice
Carter lived formerly at Taylorsville, but
moved lately to Orange, N. J., from
which point the letter was malled. The
prisoner said she had mailed the letter prisoner said she had mailed the letter at the request of another party. She was on a visit to her mother at the time the arrest was made.

All Depends on the Guess.

As the time for the Corbett-Fitzein as the time for the excitement in local sporting circles is becoming really intense. The membership of the St. Patrick's Club has reached tremendous proportions, and bets at 100 to 50 are freely taken. A large corporation has formed a pool on the result. Each man contributed 50 cents, which entitled him to guess who would be the winner, and the number of rounds that would be fought. The man whose guess comes nearest the actual result is to take the pool.

Lieutenant Frank Woon for Adjus tant. Now that Captain Shafer has been re

pot.

Now that Captain Shafer has been re-elected to command Company B, of the Blues Battallon, the position of adjutant of the battallon is made vacant. Lieu-tenant W. S. P. Mayo was spoken of for the office, but it is now said that he doesn't want it, and rumor has it that Lieutenant Frank Woon will be assigned to the adjutantship. He is well qualified for the position, and Major Cutchins, who is to make the appointment, favors him,

The Deep-Run Hunt Club have inau-gurated polo-games at their beadquare-ters. An excellent ground has been marked off, and the game is extremely popular. The members of the club meet nearly every fine afternoon and practice.
